

ARCHITEK ASSURED GREEN ROOFS

Inspection Chamber

Cost effective and high-quality galvanized inspection chamber for green roof drainage detailing with lateral slots for efficient water passage and removable cover with bolt holes to avoid wind-uplift

KEY FEATURES:

Cost Saving: Requires less time to install and very low maintenance involved.

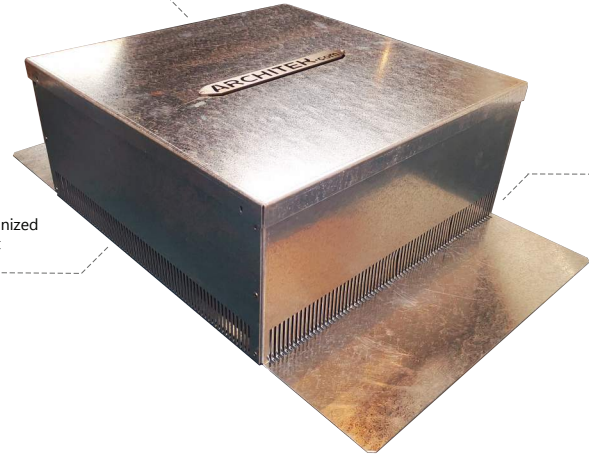

High Quality: Galvanized corrosion resistant construction with sturdy heavy duty material for long lifespan.

Protection and Inspection: Removable lid can be bolted in place for wind-uplift, slotted drain grids for water flow and reduce solid materials in drain downspouts.

Removable cover can be bolted in place

High Quality galvanized corrosion resistant construction

Slotted drain grids for water flow

ABOUT THIS SYSTEM

Height (mm):	200
Weight (kg):	6.0
Aperture (mm):	460 x 460
Thickness (mm):	1.5
Slot width (mm):	4
Flange (mm):	760x460
